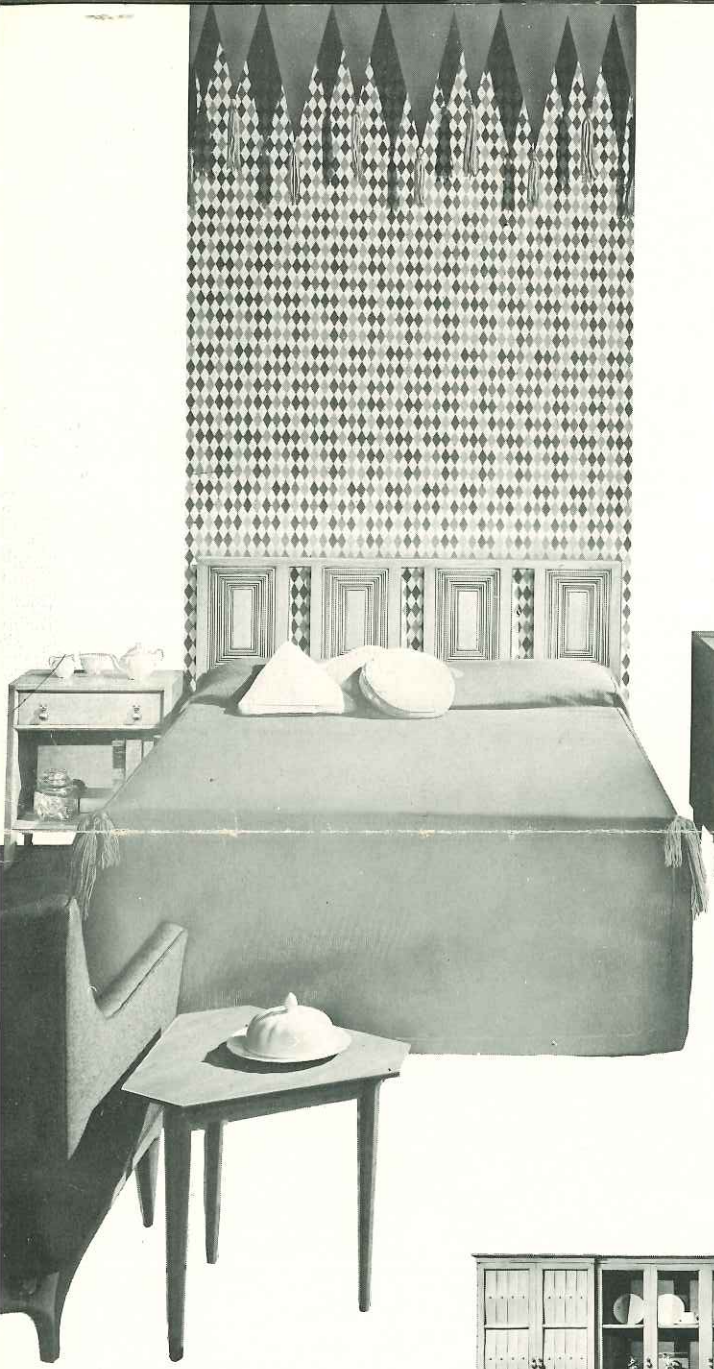
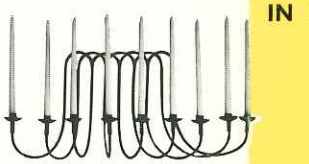
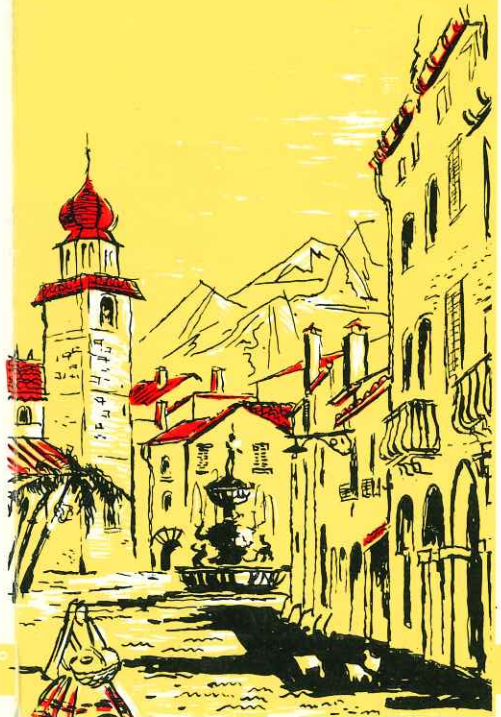
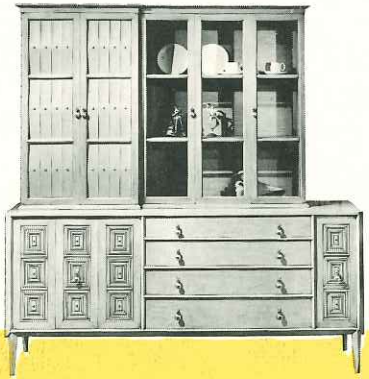
A NEW STAR

IN HIGH FASHION DÉCOR









SCIENTIFIC LIBRARY
JUL 27 1960
U. S. PATENT OFFICE

CASALINDA with its bleached distressed finish represents a sparkling new star in high-fashion décor. For centuries the equatorial isles of the world have been the meeting place of different races. Treasured arts and customs, the ancient ways of East and West, still linger there . . . so reflected in CASALINDA.

CASALINDA has been designed with thirty-two pieces for bedroom, dining room and living room for discriminating people whose natural interest is for elegantly designed furniture reflecting this romantic influence.

MT. AIRY CHAIR COMPANY • MT. AIRY FURNITURE COMPANY

The tropics weave a magic spell, so vivid is the blue water and so golden the sunshine. With the dramatic CASALINDA collection, designer Ray Sobota has captured the dazzling lights and deep shadows of this festive background . . . through the historic Iberian cities to the Caribbean and Mexico with its towering mountains and rugged seacoast. CASALINDA, meaning "beautiful house" in Spanish, is superbly evocative in reproducing this atmosphere in the contemporary manner. The mellow Claro walnut finish is especially characteristic of the Latin Countries, echoing the Moorish cultures, the Renaissance, and the brilliant diversity of their landscape.
